

Product Line Card

DQE designs and sells essential emergency preparedness products that healthcare workers, emergency responders, and workplaces depend on to enhance safety and health. Since 1990, DQE has led the way with our practical approach to emergency preparedness.

DECONTAMINATION

DQE's full line of decontamination showers, pools, accessories to meet a variety of HazMat scenarios.

Portable Decontamination Shower Systems

From the highly durable Indestructo shower for field decon to the privacy of the Standard Decon Shower, our assortment of decon showers fit a variety of situations and needs.

- ✓ Made in USA
- ✓ Free replacement warranty
- ✓ Fast assembly
- ✓ Effortless cleaning
- ✓ Industry leader for nearly 30 years
- ✓ Quality that lasts through trainings & HazMat events
- ✓ Easy transport

Wastewater Collection

Contaminated wastewater storage tanks come in 150 gallon and 1,000 gallon varieties. The size of the HazMat emergency response determines the size of the decon bladder needed.

Decontamination Pools

Decon pools serve the diverse needs for decon runoff water collections.

HazMat Personal Privacy Kits

Decon privacy kits give people with HazMat exposure an easy way to ensure modesty before, during, and after decontamination.

Decon Brushes

Soft-bristle brushes, chemical resistant brushes, sprayers, and other supplies thoroughly remove contaminant and assist in the decontamination process.

Water Hoses & Pumps

Manage the water flow in and out of your decontamination equipment, while maintaining the safety of your decontamination site.

HEALTH & WELLNESS

Practical products that put the health and safety first.

37°C Responder Rehab

Ensure the well-being of your team with supplies that support periods of rest, nourishment, re-hydration, recovery, cooling/warming, and medical attention.

Kore Kooler® Rehab Chair

For anyone exerting themselves in the heat to lower the impact of heat stress on their health and safety.

Carcinogen Decontamination

Develop a decon area in the warm zone for dropping tools, doffing firefighter PPE and SCBA, and maintaining personal hygiene by removing carcinogens from the skin.

Sani-Bag+® Commode Liner

Use as an everyday solution in bedpans/commodos to reduce the risk of spreading infections. Excellent for emergency use to dispose of human waste without a need for water when toilets aren't available.

Cooling Vests

Reduce the chance of heat-related illness and keep your core temperature down with these lightweight cooling vests.

HAZMAT RESPONSE

Tools and supplies for containing, controlling, and cleaning up.

Non-Sparking Tools

Non-sparking, corrosive-resistant safety tools for HazMat response where flammable or combustible vapors, liquids, dusts or residues may be present.

Leak & Spill Kits

DQE carries the full line of Edwards and Cromwell HazMat leak kits and Chlorine Institute Emergency Kits.

Overpack Drums

Collect and transport soiled sorbents, clean-up contaminated sites, and transport hazardous solids. Overpack Drum containers are available in sizes ranging from 20 to 95 gallons.

Spill Remediation Tools

Specifically designed for spill kits and environmental and industrial clean-up applications, these tools are rugged, non-sparking, and chemically resistant.

DQE is continuously expanding its product lines with proven and practical products! Contact us to learn about our latest products and for information and support on existing items.

PERSONAL PROTECTION

From daily infection prevention requiring good standard precautions, to chemical threats from community emergency events and deadly contagious outbreaks, personal protection garments are vital for safety and health.

PPE Kits

Grab and go chemical PPE kits that are packaged for easy identification, distribution and storage.

Chemical Protective Equipment

Designed for chemical safety and maneuverability. HazMat suits have a large range of variables and specifications, we carry a full range of coveralls to fit your needs.

Infection Control

Maintain protected when managing a crisis and providing care to those in need.

Boots & Gloves

HazMat boots and chemical-resistant gloves with various tactile qualities and protection levels to ensure the wearer remains safe.

Respiratory Protection

Powered air purifying respirators (PAPR) or air purifying respirators (APR) that are comfortable and reliable.

Custom PPE Kits

DQE can customize and private label a wide variety of PPE kits with coveralls, gloves, and eyewear to fit your needs.

MASS CARE

DQE medical surge products assist healthcare providers and emergency responders in streamlining care and being resilient during a crisis that requires increased capacity. Surge capacity is increased through disposable bed linens, disposable patient gowns, hospital staff disposable supplies, and more.

MasCache® PODs

Contains prepackaged patient care kits, linen kits, staff scrubs, and more. Additional items such as privacy curtains, IV poles, and disposable stethoscopes are included to facilitate rapid deployment of temporary patient care areas.

MasCache® MODs

Each MOD is two mobile, disposable cabinets that are prepacked with patient care kits, bedding kits, staff scrubs, and more. Additional items are included so that all of the supplies needed for surge care are located in one centralized location.

Patient Surge Care Supplies

Supplies used during medical surge situations, at alternate care sites, and field hospitals

Emergency Beds & Cots

These medical beds support critical needs during a pandemic, natural disaster, or other emergency events.

Privacy Screens & Barriers

Portable barrier screens provide separation and encourages social distancing while reducing exposure to infectious particles.

EVACUATION

DQE's line of evacuation products gives you the proper tools to help eliminate unknowns and limit liability.

Slyde® Evacuation Sled

With a simple, one-person setup, the Slyde Evacuation Sled is a quick and efficient way to slide people to safety. This rescue sled can assist you with moving someone who has become immobilized.

PACE Evacuation Toolbox

Contains items such as the Evacuation Go-Pouch, Mobility Level Wristbands, Evacuation Door Signs, Information and Tracking Forms, Evacuation Group Vests, and more to provide a standardized process for organizing evacuation.

HOSPITAL INCIDENT COMMAND

DQE Incident Solutions products with HICS goals and strategies in mind to enhance hospital preparedness and response capabilities.

HICS Command Toolbox

Provides an organized set of tools to perform HICS management procedures. Contents are designed to aid in the deployment of a hospital command center and are aligned with HICS standards.

HICS Incident Command Vests

Easily identify team members roles using color-coded vests with printed titles.
